Josefine Löfgren
Front End Developer

I design and develop responsive and optimized websites and apps. I love creating user-friendly web solutions and engaging interactions between people and technology.

I would describe myself as a problem solver and a creative thinker who pays attention to details as well as I enjoy writing clean, elegant and efficent code.

Courses in Personnel, Work and Organization
Stockholm University, 2019 - 2020

High School Diploma, Information and Media Technology
Luleå Gymnasieskola, 2013 - 2016

EXPERIENCE

Retail Sales Associate / Departmant Manager & Back-up Sales Support
Clas Ohlson Drottninggatan, Oct 2017 - Now

Former department manager of the "Outdoor life" team and back-up Sales Support at the flagship store. My tasks back then was to support the manager in matters concerning the staff; administrative work, scheduling, contracts and the daily operation of the store. Today I work part time as a sales associate and sometimes help with Visual Merchandising at campaign launches and needs.

IT / Tech Researcher
HCM Partner / Continental Search Alliance, Oct 2019 - Dec 2020

My job as a researcher was to assist the recruitment consultants in identifying and contacting potential candidates in the IT / tech area. The job included tasks such as reviewing CVs, conducting interviews and running the processes overall.

Preschool Substitute Teacher
Lärarförmedlarna / People Productions Sweden, Oct 2017 - Sep 2017

Substitute at preschools around Stockholm Municipality. A playful job that required a great responsibility, commitment and a lot of creativity.
